SYRIA OIL - GAS & ENERGY

SYRIA OIL & GAS, ENERGY & ELECTRICITY

Uniting Market Shareholders of the Region

The Syria Oil & Gas, Energy & Electricity Exhibition is set to be a pivotal event for the oil and gas industry, taking place at the **Damascus International Fairground** from **December 12-15, 2026.** The exhibition's strategic positioning will serve as a gateway to the oil and gas sector, offering significant opportunities for stakeholders to strengthen their presence in the region's energy market.

With the growing interest in Syria's energy market, the 2025 edition is expected to feature even more exhibitors and visitors from across the globe. Over **400 B2B meetings** to be scheduled, offering increased opportunities for networking, business development, and strategic partnerships.The Syria Oil & Gas, Energy & Electricity Exhibition is an essential event for businesses that are willing to work in a challenging environment. This exhibition helps bridge the gap between the country's energy needs and the international expertise required for rebuilding the sector. It also highlights the potential for significant future gains as Syria seeks to revitalize its oil and gas production.

While the electricity sector in Syria continues to face significant challenges, there are numerous positive developments and opportunities for growth. These include the potential for renewable energy, international support, the resilience of local communities, and the growing interest in decentralized energy systems. With continued efforts to rehabilitate infrastructure and promote energy-efficient solutions.

WHY EXHIBIT?

- **Access to a Recovering Market:** Position your company in Syria's rebuilding oil and gas sector, which holds long-term potential.
- **Meet Decision-Makers:** Direct access to government officials and industry leaders, facilitating valuable connections and partnerships.
- **Expand Regional Opportunities:** Leverage Syria's strategic location to access markets in the Middle East.
- **Showcase Technology:** Demonstrate your products and services to a targeted audience looking for innovative energy solutions.
- **Networking and Business Development:** Take advantage of over 400 B2B meetings to secure new partnerships and deals.

Gain Industry Insights: Participate in conferences and workshops to stay ahead of market trends and opportunities.

SYRIA OIL - GAS & ENERGY

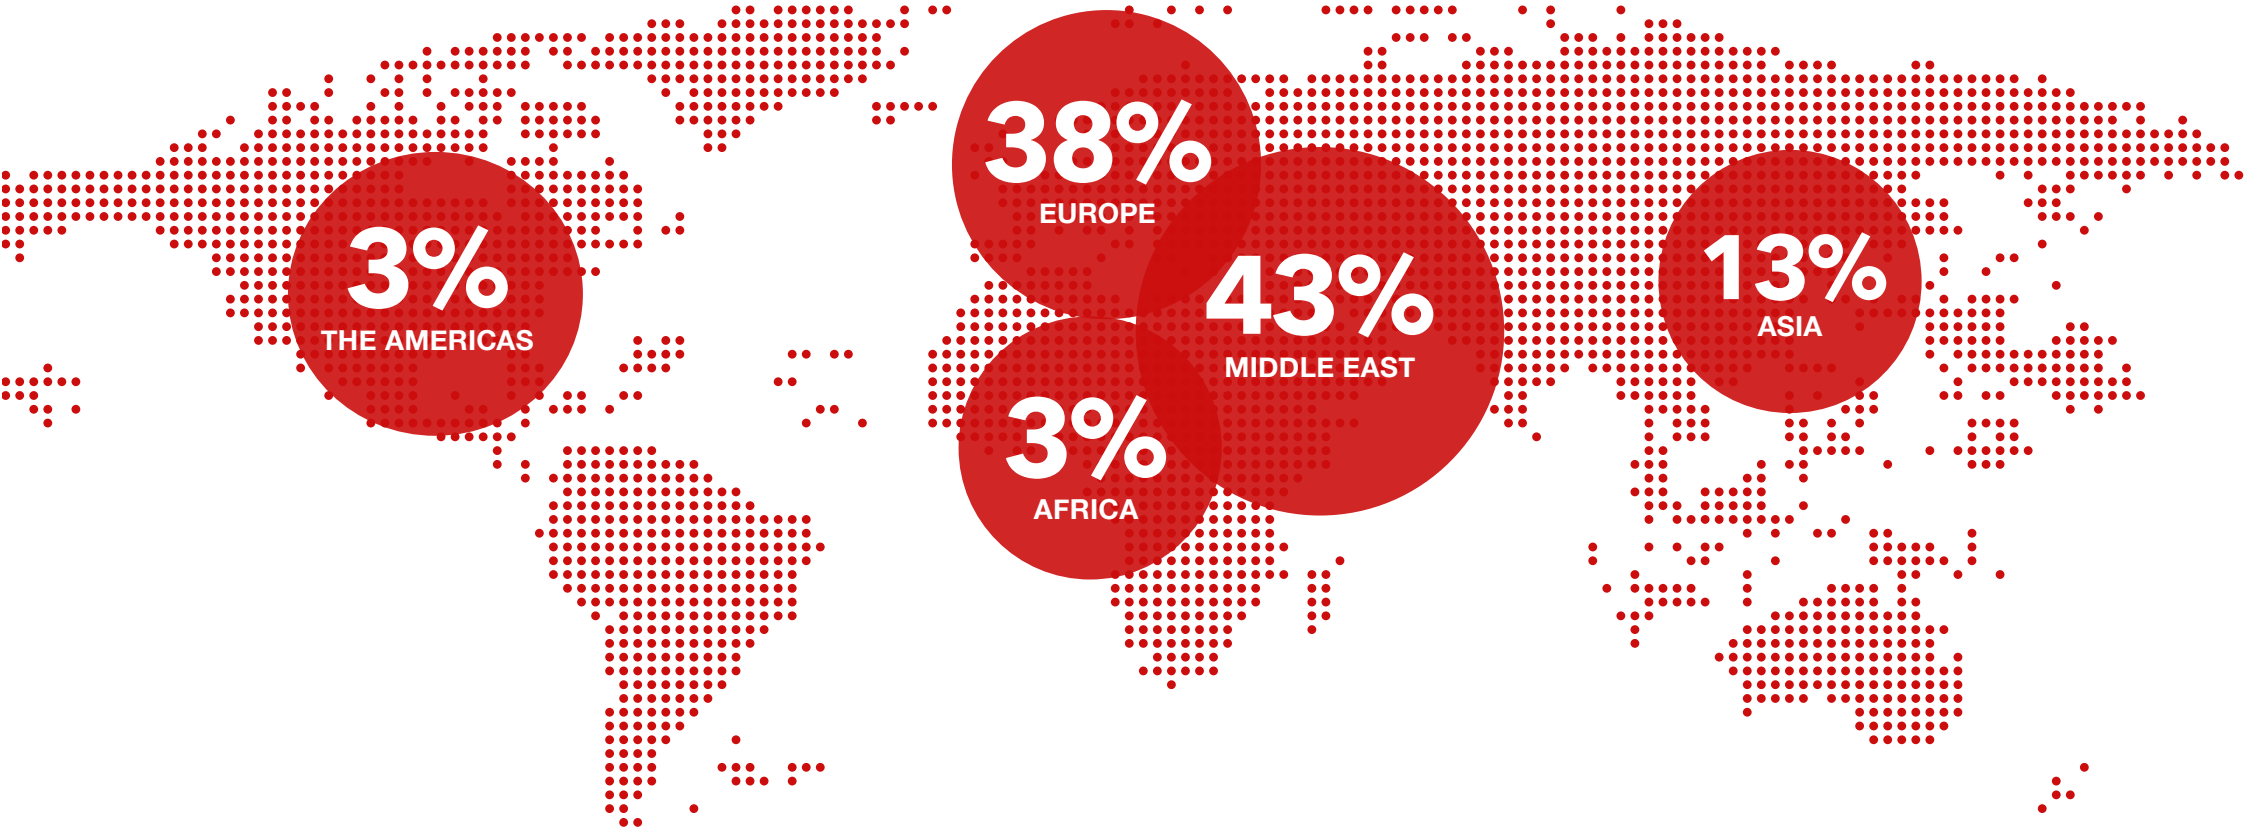
EXHIBITOR PROFILE

- OIL FIELD
- GAS FIELD EQUIPMENT & SERVICES
- PROCESSING & PETROCHEMICALS
- SOLAR ENERGY
- SECURITY
- MEASUREMENT & AUTOMATION TECHNOLOGY
- TRANSPORTATION & PIPLINES
- SOFTWARE
- CONSTRUCTION
- RENEWABLE ENERGY
- CABLES
- SAFETY DEVICES
- RETAIL & DISTRIBUTION SERVICES
- PUMPS & VALVES
- POWER SYSTEMS
- EXPLORATION & PRODUCTION
- REFINING
- HEAVY MACHINERY & EQUIPMENT
- DRILLING & WELL SERVICING
- TOLLS & ELECTRO-POWER EQUIPMENT
- POWER TOOLS
- CONNECTORS
- WIND TRIBUNES
- RECRUITING & TRAINING
- MARINE TECHNOLOGY
- STORAGE
- IT & TELECOMMUNICATION
- ENGINEERING
- GENERATORS
- SOLAR POWER EQUIPMENT
- WIND TURBINES
- ELECTRICAL WIRING
- POWER PROTECTION EQUIPMENT
- ONSHOONSHORE & OFFSHORE TECHNOLOGY

SYRIA OIL - GAS & ENERGY

JOIN THE RISING ENERGY MARKET

Syria Oil & Gas, Energy & Electricity Exhibition is the key business platform with its energy specialists and shareholders. The unique energy fair will gather over 300 exhibitors from all around the world.



SYRIA OIL - GAS & ENERGY

VISITOR PROFILE

- Natural Oil Company/ Government Institutions
- Embassies
- Approval / Testing/ Inspection Services
- Chemical Plant /Factory
- Construction
- Drilling Contractor/ Equipment
- Education & Training
- Plant Engineering & Construction
- Engineering Construction & Contracting Services
- Environmental Protection / Solution Control
- Financial Servicess
- Geological / Geophysical Seismic & Services
- Inspection / Maintenance Equipment
- LNG / Petrochemical Plant
- Project Consultancy
- Repair Services (Including Welding Shops)
- Oil & Gas Exploration, Production & Distribution
- Oil and Gas Processing & Refineryl
- Security
- Trade Associationss
- Research & Development
- Rig / Fabricator / Operator
- Pipelines Operation/ Installation
- Transportation, Storage & Handling
- Manufacturer’s Representative/ Vendor to Natural Oil Company/ Government Institutions

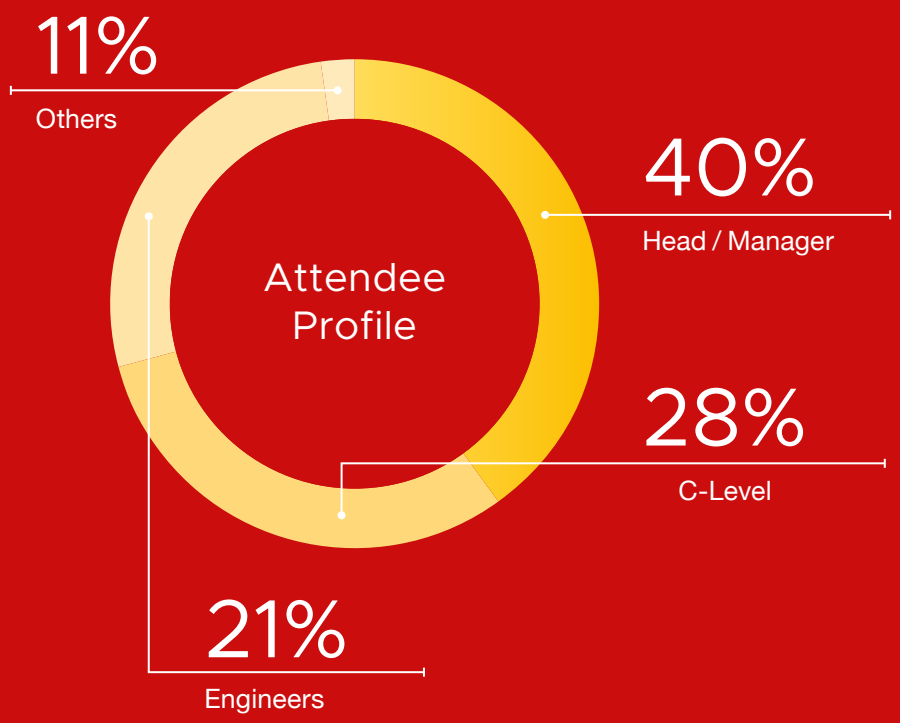
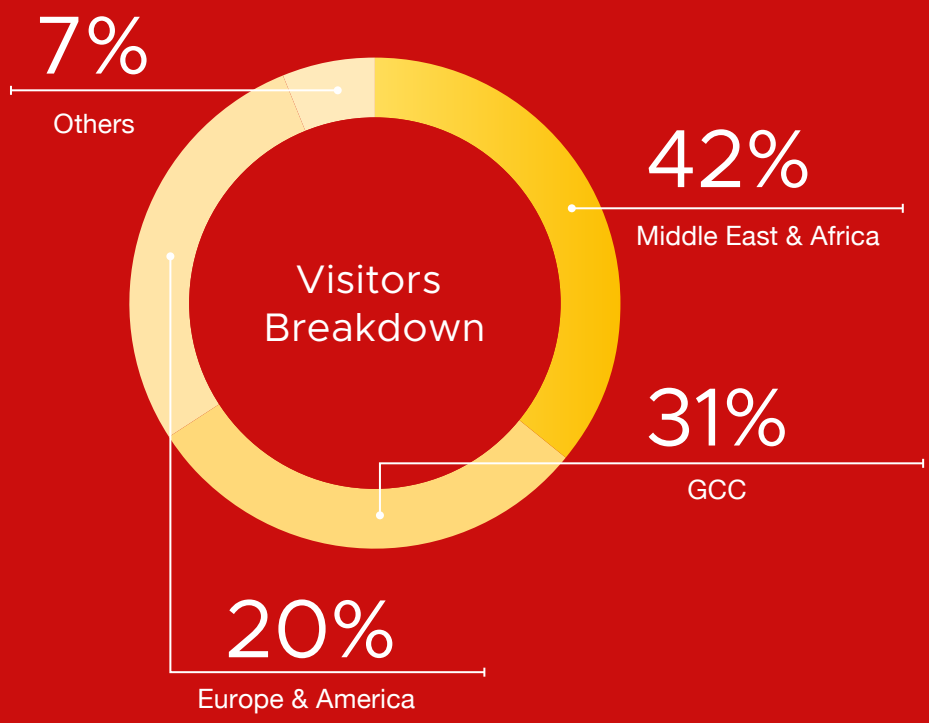
Meet with Key Decision Makers of Middle East Energy Market





SYRIA OIL - GAS & ENERGY

SYRIA MARKET OVERVIEW

Proven Oil Reserves: Approximately **2.5 billion barrels.**
Oil Production: Around **380,000 barrels per day (bpd).**

Proven Natural Gas Reserves: Estimated at around **240 billion cubic meters.**
Natural Gas Production: Approximately **8-10 million cubic meters per day.**

Electricity Generation: Syria's electricity generation capacity was around **8,000 MW.**

Solar Irradiance: Syria receives about **2,000–2,500 kWh/m²** per year of solar radiation, making it highly suitable for solar power generation.
Land Area for Solar: The country has vast areas of land suitable for large-scale solar installations, particularly in the eastern and southern parts of Syria.
